

8.4 Door Hardware

A. General Requirements

1. Submit shop drawings.
2. Locksets shall be keyed with the full participation of the Campus Plant Supervisor.
3. Cylinder cores shall be removable such that Campus Plant Supervisor can re-key locksets easily in the future.
4. In certain cases mortise locksets are required, but in general cylinder locksets are preferred for economy.
5. Hardware finish shall match adjacent campus conditions. Default finish is US XYZ Brushed Stainless Steel. Finish shall be consistent for each item of hardware to be installed.

B. South Campus

1. Utilize BEST locksets; 6 pin. Utilize Von Duprin panic devices. Utilize LCN door closers.

C. North Campus

D. Kent Campus

1. Utilize Corbin Russwin 6 pin locksets.

E. Downtown Campus

1. Utilize Corbin Russwin locksets; 6 pin.
2. Martin Center : Utilize Schlage locksets and passage sets.
