

Florida Community College at Jacksonville

2007-08 Catalog: Programs of Study

Information Technology Management (4101)

Advanced Technical Certificate

Information Technology managers and professionals in government, industry and other organizations can become more effective, knowledgeable leaders by completing this 18-credit advanced certificate program. Courses include software project management, technology project management, computational finance, management of entrepreneurial efforts and IT management.

In order to be accepted for the program, you must have completed a two-year computer or computer-related degree, or have completed a four-year degree, or be employed as a technical manager or technical administrator. However, individual courses below may be taken without being accepted to this certificate program, provided prerequisites for each course are met.

Career Opportunities, Rapid Placement

An intranet site posts jobs targeting our students. You may also post your resume and receive e-mails about job-related topics.

Annual Salaries

Local salaries range from \$45,000 to \$65,000 annually. National average salaries are in the range of \$70,000.

Cost

Estimated cost of tuition is \$1,195 (tuition rated for Florida residents, as of 7/07). Contact the program manager for additional costs (textbooks, fees, materials).
